

***Sound-Lok Limited 50 Year Warranty
Addendum for Low Slope Installation***

Addendum to Registration No.: _____

Sound Building Supply, Inc. will warranty our Sound-Lok panels on a low slope (3/12 pitch and lower) roof, as long as a hook eave flashing is installed and the panels are being bent up at top termination (ridge, skylight, wall, etc.). Smart Ridge is to be used at all top terminations as well. Also required for warranty on this application is a standard Hi-Temp Ice & Water shield (ASTM D1970 or Greater) installed in conjunction with the Sound-Lok metal roof.

All other standard warranty requirements apply.
